

STONE FIREPLACES

By: North Star Stone

14 Different Styles of Stone

Handcrafted and Custom Colored

Mission Statement

1. To custom color and handcraft every piece of stone to create stunning and timeless fireplaces in our customer's homes that are beautiful, unique, and affordable.
2. To offer both skilled masonry installation or truck delivery to your job site.
3. To assist with design ideas, material selections and other services such as TV installation and wood mantels.

Creating Beautiful Stone Fireplaces

Cobble Stone

At North Star Stone, we will listen to your dreams for the perfect fireplace. This includes selecting the style that makes you feel comfortable and is suitable for your lifestyle.

Cobble Stone is a timeless stone shape with softer edges, larger pieces and is always installed with a mortar joint.

Mountain Stack

Mountain Stack stone creates a blend of texture and strength with plenty of visual interest. This stone is our most popular style that can be installed with or without a mortar joint.

Mountain Ledge

Mountain Ledge is our most textured stone and is for the customer wanting to create a bold statement. The stone looks fabulous installed with a mortar joint. Colors are typically more dramatic to match the shape.

Ledge Stone

Ledge Stone is elegant, sophisticated and very flexible. Two Ledge Stone styles to choose from with unlimited color choices. Installations can be done with or without a mortar joint.

Wisconsin Prairie Stone is a blend of three different stone shapes and works well in rooms with 12'-18' ceilings. Installations can be done with or without a mortar joint.
